

# Governance of Inter-Organizational Project Networks

Ralf Müller  
May 2020

A study funded by the Project Management Institute (PMI)

# Governance of interorganizational networks for joint projects

- **Purpose:** understand the relationships of networked organizations over time
- **Goal:** a framework for governing, managing and improving network relationships between partner organizations
- **Method:** 3 step process. Start now with interviews within organizations involved in construction projects

# Governance of interorganizational networks for joint projects

- **We are looking for:** organizations, to interview about 5 people with knowledge about network partners and when to involve them.
- **Effort:** Five online interviews of approx. 45 minutes each
- **WIIFM** (what's in it for me?):
  - continuous updates on the research findings via a shared website
  - a seminar for the organization about the research results and the specifics of their particular organization
  - Insights to improve the own network and its governance.

# Governance of interorganizational networks for joint projects

- **How to engage:** Contact Ralf Müller at:
